Professional Scrum Master I (PSM I)

Score 91%

RÉMI JALLAGEAS

Producer

ABOUT ME

I'm genuinely dedicated to video game production, ensuring each project I undertake receives my full attention.

I find great satisfaction in leading teams through the entire production process, from concept to release, across various platforms. My focus is on maintaining quality and cohesion at every stage, ensuring our games resonate with players.

WORK EXPERIENCE

Since January 2024

Producer at Celsius Online

- Led a cross-functional team on a critical company project.
- Improved communication to streamline development processes.
- Implemented task hour tracking for budget and time management on each production stage.
- Updated milestone schedules and project roadmap documents.
- Tracked and reported production progress to senior management.

Since July 2020

Producer at Plug In Digital

- Developed milestone plans for premium mobile, PC, and Nintendo Switch projects.
- Managed projects from inception and pre-production to post-launch updates.
- Orchestrated mobile premium game releases in alignment with global schedules
- Oversaw outsourcing for porting, localization, and QA.
- Provided developer feedback on game design, UI/UX, and monetization.

Since February 2020

President & Producer of OKYO GAMES

- Founded and took complete responsibility for the administrative and financial setup of the company to commercialize our game Neon Beats.
- Managed release operations for Steam, App Store, and Play Store.
- Collaborated with distributors for PC and Mobile versions, ensuring regular updates and deal validation.

Successfully released on Steam, Apple and Google Play Stores
